NEW! ALL-IN-ONE, QUICK DRY HARD SURFACE FINISH EXTREME PERFORMANCE TREATMENT

Need to get it done fast? Introducing the new and improved **AD2000-QD All-In-One, Quick Dry, Hard Surface Finish**. Our patented, low-foaming AD2000-QD provides a quick drying, long-lasting, stunningly beautiful, sustainable and non-sacrificial finish that protects tile, stone, terrazzo, non-ferrous metal, painted metal and concrete surfaces from corrosion, abrasive wear, mold, odor, graffiti and chemical attack. All with less down time.

At Adsil, we specialize in sustainability - making your assets last longer, stay cleaner and cost less to maintain. Our **MicroGuard All-In-One, Quick Dry Hard Surface Finish** is an inorganic, self-curing, glass-like coating that is among the most durable coatings known to mankind. So different and effective, it's patented.

Adsil's MicroGuard AD2000-QD clear siloxane sealing system covalently bonds with tile, stone, terrazzo and concrete surfaces to produce a beautiful, strong, thin, clear coat that delivers remarkable adhesion, long-term protection and wear-resistance. Inside or outside.

MicroGuard® AD2000-QD (Quick Dry) is formulated as a faster drying alternative to the MicroGuard AD1000 All-In-One Hard Surface Finish. Faster drying time is particularly beneficial when dealing in the hospitality or restaurant sectors or any business where downtime is an issue. AD2000-QD maintains all the beneficial properties of AD1000.

PRIMARY BENEFITS INCLUDE:

- Less down time (50% faster cure time)
- Beautiful, hi-gloss finish
- Extends asset/property life
- Mitigates microbial growth (ASTM G-21 rated 0)
- "High Traction" wet or dry (NSFI certified)
- Eliminates the need for waxing & buffing
- Wear resistant, long-term durability (ASTM D-4060)
- Crystal clear, non-yellowing finish
- Chemical, abrasion and stain resistant
- Sustainable with proven ROI
 - Easy to clean, low maintenance
 - Cost reduction in cleaning materials and labor
 - Enables green cleaners to be effectively used
 - No maintenance contract necessary
- Non-sacrificial, graffiti protection
- Enhances the color of decorative stone
- Indoor or outdoor use

Preserve, prolong and protect your most valuable assets, and your bottom line, with MicroGuard.
